### Request for Proposal

#### Alexandra Riverside Park Project Construction Partner

The Council is looking for credible providers who have the capability, experience, and infrastructure to deliver the best solution as a construction partner for the Alexandra Riverside Park project. Aims include:

- Rejuvenation of Alexandra's downtown CBD precinct
- Integration of rivers and riverside to the town's pedestrian heart
- Improved access and connection for cyclists and walkers using the local track network.

The supplier must have a good track record in the management and implementation of projects and have effective networks and strong relationships to deliver the best outcome for the community. Innovation is important to the CODC, and we would like to work with the supplier, encouraging forward thinking and welcoming innovative alternative solutions from the detailed design phase to construction, for the best outcome for the community with the funding available.

There is also an ability to tender for the construction (phase two) only if your company doesn't have the capacity or capability to complete the detailed design (phase one). This project has a significant community benefit and interest. This project will increase our community's wellbeing, which a contractor can be proud to be associated with.

- RFP released: 1 March 2024
- Deadline for Questions: 15 March 2024
- Deadline for Proposals: 5 April 2024 at 2pm.
