

CO 2004-19 is the Tender Document for CO 2004-26, District Wide Scada Telemetry Contract. There appears to have been a separate CO number issued for the tender documents. The contract itself was initiated in 2005 and has been mistakenly called CON 05-2005-26. The correct contract number is CO 2004-26.

The Tender Document is held in CODC archive, Room 1, box 334
