

Wellington
21/8/78

Dear Sir
The County Clerk is instructed to
forward a copy of this letter to the County Engineer
and to inform him of the necessity of this at once
having himself in communication with the District Surveyor

copy
sent
A.S.

Vincent Pyke
Chairman

S. G. 1985

General Survey Office
15th Aug. 1878.

Mr Arthur Esq
Chief Surveyor
Dunedin.

Mr Vincent Pyke, Chairman of Vincent
County, has represented to me that in surveying
main roads through the county it would be
very desirable that the District Surveyor was
instructed to ascertain the wishes of the County
Council with regard to the sites for bridges, the
line of road where side or block cuttings or
other works involving expensive construction occur.
As this seems a very reasonable request seeing that
the County has to find the funds for these works,
you will please instruct Mr Mackay accordingly
and I have no doubt but that he and the County
Engineer will without inconvenience to either,
be able to confer whenever it is necessary to do so,
upon the most suitable lines of roads.

J. James McKerron
Assistant Surveyor General.
