Details of submission

The specific parts of the application that my submission relates to are: The location of the proposed solar farm, the visual blight on central Otago & Maniototo's landscape.
The risks to the environment if there is damage to the panels if batteries ignite.
The risks to the aquifer.
The fact that the company installing and running this project will not own the land and could potentially walk away if the was a disaster.
My concern also is how it could change the micro climate in the area.

The submission - include:

I oppose the proposed Solar farm being built in the Maniototo.

The Maniototo landscape is unique and should not be ruined by allowing this, there will be no benefit whatsoever to the ratepayers & visitors to the Maniototo apart from two landowners.

This can only be seen as detrimental to the neighbouring landowners and townsfolk of Naseby & Ranfurly
