Details of submission

The specific parts of the application that my submission relates to are:	I oppose the entire application for the Helios Maniototo Plain Solar Farm, Ranfurly-Naseby Rd, Central Otago.
The submission - include:	I oppose this application due to the following reasons:

- whether you support or oppose the specific parts of the application or wish to have them amended; and
- the reasons for your views.

* Negative visual pollution it will create in this area, therefore losing the 'big sky' uninterrupted visual landscape Maniototo has.

*The environmental risk that this poses, due to large scale lithium battery storage, and it's possible ignition and long term burning risks along with subsequent environmental pollution due to chemical leaching of a burning battery if this happens.

*The negative effect on local property values, on both residential and rural properties.

*Inappropriate and ineffective physical location for this a solar project in New Zealand i.e greater demand for electricity is in the North Island not the South Island. The greater solar power producing capacity is also in the North Island - therefore it makes no sense to locate this project in the South Island, store the electricity then transfer to the North Island.

In summary I oppose this application due to it being an unsuitable location which will be detrimental to the community if it goes ahead.
