batteries.
 The reasons are:
 The large scale of the installation, having never been done before
 The possible glare from the solar panels at certain times of the day, with drivers coming over from Wedderburn.
 The glare to neighbours
 The noise from the fans
 The lack of guarantee the fans will be able to cool the batteries in our 30 degree heat
 The unknown content of the storage batteries
 Water requirement to clean the panels
 The lack of safe guards if a fire were to happen
 Water requirements to fight a fire caused by the solar panels or batteries and the capability of the community to fight a fire to such a size, in so many directions.
 Especially as FENZ can not go into an area with either lithium batteries or unknown substances in batteries.
 The shallow water table depth that runs under the proposed site for this installation that provides water to Ranfurly.
