## Details of submission

**The specific parts of the application that my submission relates to are:**

The Solar panels and their destruction of prime farm land aswell as absolutely no consideration for the effects on neighboring properties or their families and their livelihoods.

**The submission - include:**

- **whether you support or oppose the specific parts of the application or wish to have them amended; and**
- **the reasons for your views.**

I strongly oppose this entire operation going ahead. The effects to the land and surrounding farms, the effects to people's livelihood, the lost of income and the loss of property value neighboring a solar farm like this will be astronomical for the neighboring properties. Not to mention the change of climate this will bring to the region. Also who wants to look at 5 kilometers of glass, 550810 solar panels, when visiting the stunning Maniototo and the beautiful Ranfurly and Naseby regions. This is not the place for something like this. Maybe you should consider putting solar panels on wasted roof spaces like large fert sheds and the likes. My friends farm/house is the red cross in this picture and will direct this if it goes ahead!

Please upload any documents / photos that are relevant

I seek the following decision from the consent authority.

**Give precise details, including the general nature of any conditions sought**

That this consent and project does not go ahead at all! It is so wrong and not good for the environment or the general community and especially not the neighboring properties!

Select below - Pursuant to [section 100A](#) of the Act, that you delegate your functions, powers, and duties to hear and decide the application to 1 or more hearings commissioners who are not members of the local authority. "See note 4 (second tab) as you may incur costs relating to this request."
