Details of submission

The specific parts of the application that my submission relates to are: The establishment of the solar farm.

The submission - include:

- whether you support or oppose the specific parts of the application or wish to have them amended; and
- the reasons for your views.

I oppose all parts of the application. I am opposed for the following reasons: '

- *the large number of lithium batteries - the potential for fire and leaching of chemicals
- * the fact that the power generated by the solar panels will be stored then sent to the North Island. Why do we need to build such a large scale project in the Maniototo, when there are many, many suitable sites in the North Island. It doesn't make sense to build it here.
- *There is very little long term benefit to our community
- *The visual impact- I think it will be a significant eye-sore, spoiling the beauty of our area
- * I feel that this project will directly benefit only a very small number of landowners, however create stress and unhappiness for others who live nearby. The potential drop in property prices for these people is concerning, and not fair.
- *It will not reduce power prices
